

# Great Teachers Seminar

*The California Great Teachers Seminar attracts teachers from the United States and throughout the world. Since 1978, faculty members have participated to experience the powerful Great Teachers movement.*

## ***Come to the Great Teachers Seminar!***

**Focus:** The emphasis is wholly on the special nature of those who are and aspire to be great teachers. The GTS is based on the notion that, if properly tapped, the collective wisdom, experience and creativity of any group of practicing educators far surpasses that of any individual expert or consultant. The goals of the seminar include: Sharing methods and techniques ... Celebrating good teaching ... Creative, realistic problem solving ... An exploration of new ideas ... Serious introspection and self-appraisal ... Professional and personal renewal.

**Purpose:** To celebrate good teaching. To stimulate the exchange of information and ideas by building an expanding a network of communication among teachers in higher education.

**Expectation:** The Great Teachers Seminar differs from most conferences in that, for the most part, the program is created by the participants themselves.

**The staff's major role is facilitation.** The format varies but often includes: teaching clinics, panels, organized discussions, "hands on" workshops, and presentations by participants.

**When: Friday, March 7, 2014**

**Time: 9:00 am to 3:00 pm**

*"I'm definitely more excited about teaching than I was before. It was interesting and comforting to realize that even those who have been teaching for 20 years had some of the same concerns and problems that I had.*

*I learned a lot of great things that I have already used in my class."*
