# Discover, celebrate and rekindle your passion for teaching

**If you love to teach, you can't afford to miss this seminar.**

## The Great Teachers Seminar is the experience of a lifetime

Led by David Gottshall, founder of the Great Teachers Movement, this seminar is built on the knowledge that teachers learn best from other teachers. By bringing teachers of diverse teaching fields, experience levels and interests together, discovery and innovation is inevitable. With the focus squarely placed on the art of teaching, the result is nothing short of inspiring.

### A great deal of attention

Over the course of five days, 40 post-secondary educators from varied backgrounds and experience levels will participate in an intensive seminar like no other. Each participant will share information and experiences, take part in self-reflection, and explore a variety of instructional challenges, strategies, innovations, and solutions.

### A great setting

Tucked away on the side of Tunnel Mountain, the Banff Centre is home to the Great Teachers Seminar. Surrounded by the breathtaking natural beauty of Banff, Alberta, this world-class conference facility is the perfect setting for this inspirational learning experience.

### You don't have to be a great teacher to attend

The seminar is not just for accomplished teachers, it's designed to help educators who have a passion to achieve greatness, for themselves and their students.

### REGISTER NOW TO SECURE YOUR SPOT!

To ensure a quality experience, enrollment is limited to 40 persons, so be sure to sign up early and arrange for payment of enrollment fees by **Friday, April 29, 2011** to guarantee your spot at the seminar.

**ENROLLMENT  
LIMITED**

*"The Great Teachers Seminar provided opportunity to refocus on why we teach, to bring out the strengths in ourselves and our fellow teachers, and to appreciate both the scope and depth of what we do . . . something for all teachers no matter what age, experience or subject area they come from. Awesome venue, quality leadership . . . a must for all academics who claim to be teachers."*
